BRAMIC

Eventide®

Police Communications dispatchers have many types of sophisticated computer equipment to aid them in their vital life saving tasks. The two police dispatchers shown above have access to E911 PSAP phones. Computer Aided Dispatch, a radio communications console, and **Bramic Furniture** designed to help them function more effectively.

Our goal is simple.... We only sell the equipment you need for your project. We do not over sell our products and we do not make false promises about our services. We can provide a long list of satisfied customers we work with that will assure you of our quality, workmanship and reliability!

EFJohnson®
Our Mission—Your Safety
